

**SIDRONS**  
solution to surfaces

# STRIPES

## **STRIPES**

Perfect transition from dimension to flat surfaces.

From a Trapezoidal shape to a minimal surface.

To be placed vertical or horizontally to your choice.

Allows walls striped with bands of light ,shadows and now trendy colours too: Dove, Cotto, Teal, Garnet, Sky and Grey

**Goodbye flat walls!**

## **BEFORE INSTALLING THE PRODUCT**

The surface where the product is being installed must be clean and level.

It is recommended that the layout of the product is prepared before the final installation.

Make sure you choose an adhesive apt for the area where the product is being installed.

For installation on porous surfaces we recommend: Kerakoll Special® Eco, and for Non-porous surfaces: Kerakoll serie H40® Eco.

Also recommended as grouting mortar: Kerakoll Fugabella® Eco Porcelana 0-5 and for the areas susceptible to stains such as the backsplash: Kerakoll Fugalite® Eco.

## **TO ENHANCE YOUR PRODUCT**

In order to obtain the maximum WOW effect, use 1 mm - 0 3/64 in spacers between the tiles to maintain an even installation over the whole surface.

The colour of the grout should be as close as possible to the colour of your product.

Once the area has been grouted, and before the grout dries, remove any excess material with a damp sponge.

To enhance the light and shadow effect of WOW, adequate vertical lighting over the product should be installed (ideally, above the highest point of the installation)

## **MAINTENANCE**

Maintenance free. Easy and practical to care for, due to the high standard of technical characteristics in each WOW ceramic product.

Avoid abrasive or acidic cleaning products.

It is recommended to clean with clear water.

# Thank you!!
